

Peat Sampling After Early AM Rain 24 August 2021

24 August 2021

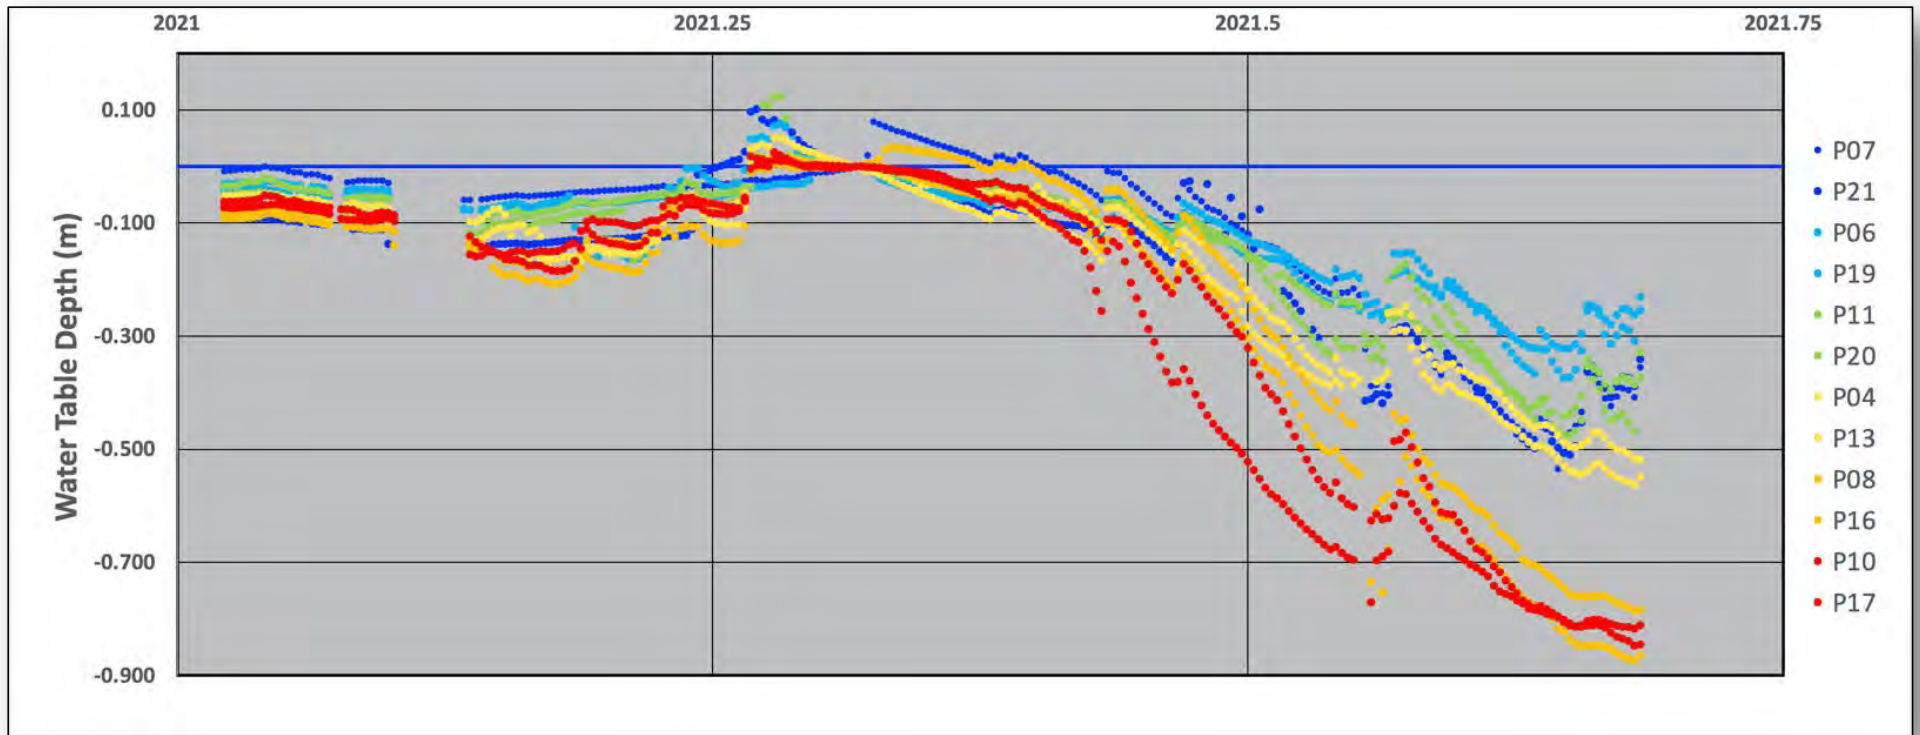

NPP Sampling 23 to 26 August 2021

NPP Sampling - 23 to 26 August 2021

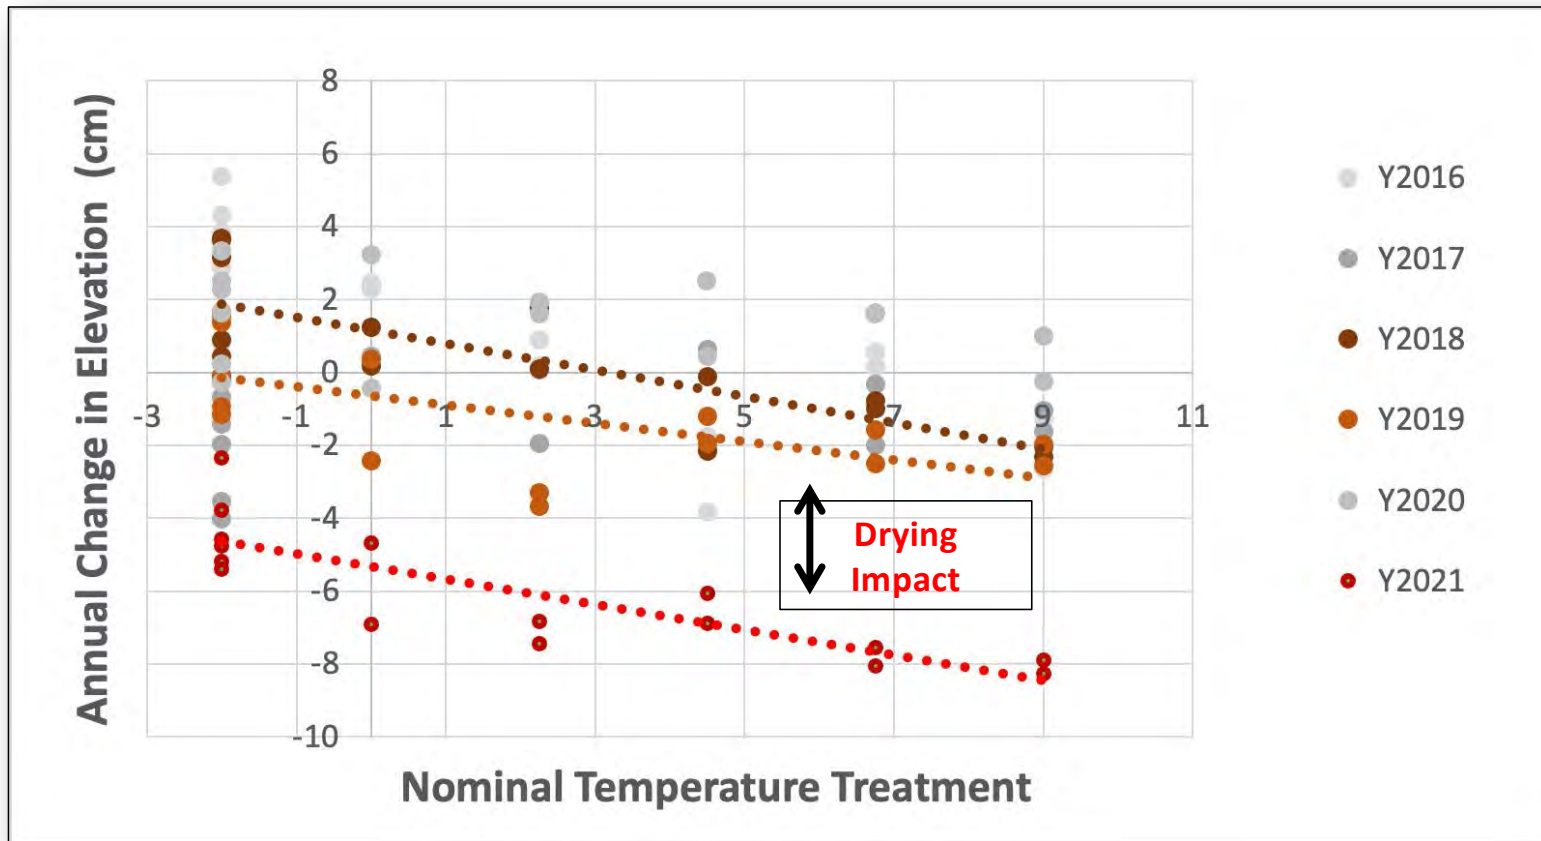

Water Table Depth

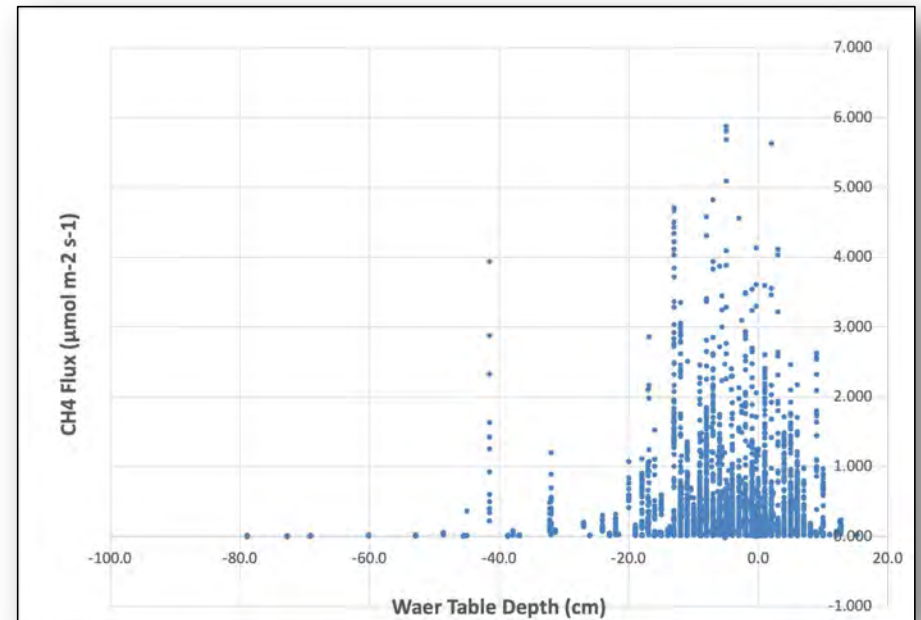

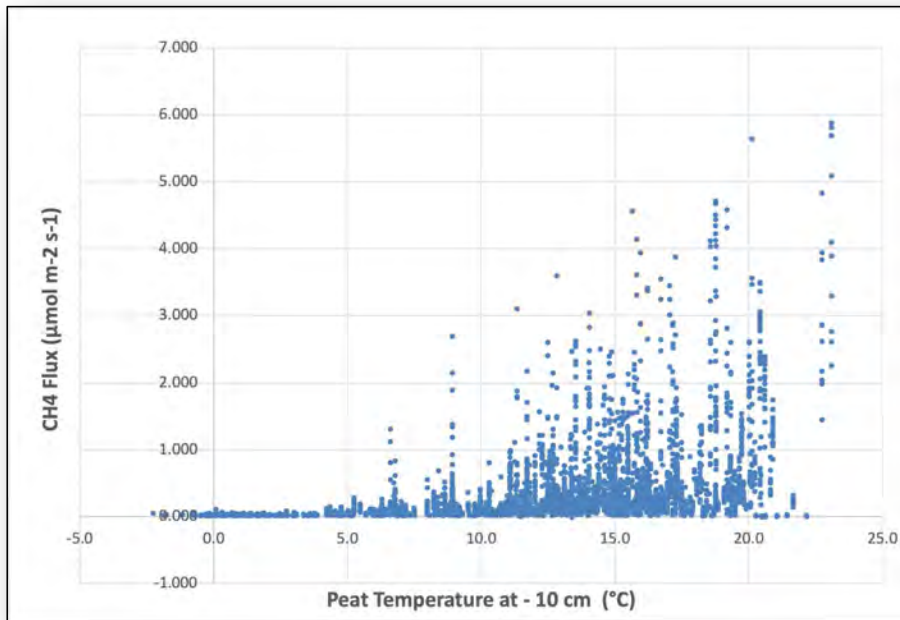

The warmest plots are not yet responsive to precipitation events.

Bog Elevation Change

Note the big drop in elevation in 2021 due to the extended dry conditions.

CH₄ Flux

With extreme drying all CH₄ flux approaches zero.

SPRUCE Safety Note

The Minnesota small-game hunting seasons have started and deer hunting is not far behind.

Wearing orange hats, vests...etc. is a good idea around the research site, and mandatory if you are walking in the forest.
