

SPRUCE All-Hands Meeting is May 13-14, 2025!

- [Link to register.](#)
- Location: Hilton Minneapolis (downtown, near the Convention Center).
- Two-day meeting, with science presentations & posters, synthesis and breakout discussions.
- Carbon/nutrient synthesis workshop on third day (May 15).

Tentative Breakout Topics

Session 1 (science topics):

- Peat (pools and elevation)
- Water relations
- Plant functional type modification

Session 2 (science topics):

- Microbes
- Regional-scale modeling/upscaling/applicability
- Acute vs chronic responses (freezes, heat waves vs. long-term warming)

Session 3 (synthesis and logistics):

- Environmental data synthesis (who needs what?)
- SPRUCE sunseting (what data to keep collecting, what to maintain beyond 2025)
- SPRUCE post-treatment sampling (coordinating activities)
